SUMMER CONFERENCE

SCIENTIFIC PROGRAMME

ABOUT THE EYBA

The European Young Bar Association (EYBA) is a European non-profit association of young lawyers. Founded over 20 years ago, concretely, on 23 May 1993 in Prague, it brings together young bar associations from across Europe in one representative organisation, providing a unified voice for young lawyers on a continent-wide basis.

The EYBA currently represents more than 200,000 young lawyers protecting their interests and organizing courses, congresses, events, meetings and networking sessions with the aim of keeping their members updated and increasing their contacts with colleagues from around Europe. The EYBA Annual General Meeting & Summer Conference is the most important event of its three annual meetings (International Weekend in September and Spring Conference in March), since it gives their members the opportunity obtain a general understanding of all the activities done by the Association during the previous year, to discuss the most important issues involving the legal profession for young lawyers and to renew its Board.

The Barcelona Young Bar Association- Barcelona YBA- ("GAJ") volunteered to host the Annual General Meeting & Summer Conference 2014 in Barcelona, by presenting itself as a candidate in the International Weekend that took place last September 2013, even though the Barcelona YBA had already hosted such meeting three years ago.

To the Barcelona YBA, the organization of the AGM signifies a real challenge and one of its main objectives is to offer an unforgettable event to all the attendees, with a scientific programme of quality and interesting activities, avoiding the expensive registration fees that are so common for such international meetings. For this reason, the Barcelona YBA has asked their own young lawyer members to participate as speakers in the conferences with the certainty that they will be able to give excellent speeches to their colleagues.

It is important to highlight that in the past years, the Barcelona YBA has been increasing its role in the international affairs related to young lawyers and is working hard to become one of the leading Bar Associations for young lawyers meetings, since it has enough resources for facing all the logistics involved in the organization.

There is no doubt that the AGM & Summer Conference 2014 Barcelona shall be a great opportunity for the assisting lawyers in order to improve their legal knowledge and exchange their professional experiences with colleagues around Europe.
